Ref: AOP 18

## **Assessment of Operative Process Zygomatic Complex Fractures**

**WBA FORM 02P** 

## Instructions

- This form is for Oral and Maxillofacial Surgery (OMS) Trainees. Trainees should refer to relevant sections of the <u>Accredited Training in OMS Handbook</u> detailing requirements for assessments.
- Please complete all sections of this form and email to omstrainee@racds.org

Trainee Details									
Trainee name				Training	OMS 1	OMS 2	OMS 3	OMS 4	
Hospital				year					
Clinical problem									
Date of procedure	,			Start time					
Duration				End time					
Competencies a	and Definitions								
The trainee should	d explain what he/she int	ends throughout the	procedu	ıre.					
The assessor should provide verbal prompts, if required, and intervene if patient safety is at risk.									
Ratings N = not o	observed/not applicable D = development required C =			C = compete	C = competent (no prompting/intervention required)				
Compatanciae and Datinitions			Rating N/D/C		Comments				
Consent									
Demonstrates sound knowledge of indications and contraindications including alternatives to surgery									
Demonstrates awareness of sequelae of operative or non-operative management									
Demonstrates sound knowledge of complications of surgery									
Explains the perioperative process to the patient and/or relatives or carers and checks understanding									
Explains likely outcome and time to recovery and checks understanding									
Pre-operative planning									
Demonstrates recognition of anatomical and pathological abnormalities (and relevant co-morbidities) and selects appropriate operative strategies/techniques to deal with these e.g., nutritional status									
Demonstrates ability to make reasoned choice of appropriate equipment, materials or devices (if any) taking into account appropriate investigations									
Checks materials, equipment and device requirements with operating room staff									
Ensures the operation site is marked where applicable									
Checks patient records, personally reviews investigations									

Pre-operative preparation Checks in theatre that consent has been obtained and appropriate time out procedures Gives effective briefing to theatre team Ensures proper and safe positioning of the patient on the operating table Demonstrates careful skin or mucosal preparation – as required Demonstrates careful draping of the patient's operative field Ensures general equipment and materials are deployed safely (e.g., suction, diathermy) Ensures appropriate drugs, inc. local anaesthesia are administered where appropriate Deploys specialist supporting equipment (e.g., operating microscope) effectively  Exposure and closure Demonstrates knowledge of optimum skin incision/mucosal/portal/access Achieves an adequate exposure through purposeful dissection in correct tissue planes and identifies all structures correctly Completes a sound wound repair where appropriate Protects the wounds with dressings, splints and drains where appropriate Intra-operative technique Follows an agreed logical sequence or protocol for the procedure Consistently handles tissue well with minimal damage Controls bleeding promptly by appropriate method Demonstrates a sound technique of knots and sutures/staples Uses instruments appropriately and safely Proceeds at appropriate pace with economy of movement Anticipates and responds appropriately to variation e.g., anatomy Deals calmly and effectively with unexpected events/complications	ts
appropriate time out procedures  Gives effective briefing to theatre team  Ensures proper and safe positioning of the patient on the operating table  Demonstrates careful skin or mucosal preparation – as required  Demonstrates careful draping of the patient's operative field  Ensures general equipment and materials are deployed safely (e.g., suction, diathermy)  Ensures appropriate drugs, inc. local anaesthesia are administered where appropriate  Deploys specialist supporting equipment (e.g., operating microscope) effectively  Exposure and closure  Demonstrates knowledge of optimum skin incision/mucosal/portal/access  Achieves an adequate exposure through purposeful dissection in correct tissue planes and identifies all structures correctly  Completes a sound wound repair where appropriate  Protects the wounds with dressings, splints and drains where appropriate  Intra-operative technique  Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmiy and effectively with unexpected events/complications

Exposure and closure  Demonstrates knowledge of optimum skin incision/mucosal/portal/access  Achieves an adequate exposure through purposeful dissection in correct tissue planes and identifies all structures correctly  Completes a sound wound repair where appropriate  Protects the wounds with dressings, splints and drains where appropriate  Intra-operative technique  Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Demonstrates knowledge of optimum skin incision/mucosal/portal/access  Achieves an adequate exposure through purposeful dissection in correct tissue planes and identifies all structures correctly  Completes a sound wound repair where appropriate  Protects the wounds with dressings, splints and drains where appropriate  Intra-operative technique  Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
incision/mucosal/portal/access  Achieves an adequate exposure through purposeful dissection in correct tissue planes and identifies all structures correctly  Completes a sound wound repair where appropriate  Protects the wounds with dressings, splints and drains where appropriate  Intra-operative technique  Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
dissection in correct tissue planes and identifies all structures correctly  Completes a sound wound repair where appropriate  Protects the wounds with dressings, splints and drains where appropriate  Intra-operative technique  Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Protects the wounds with dressings, splints and drains where appropriate  Intra-operative technique  Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Intra-operative technique  Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Follows an agreed logical sequence or protocol for the procedure  Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Consistently handles tissue well with minimal damage  Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Controls bleeding promptly by appropriate method  Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Demonstrates a sound technique of knots and sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Sutures/staples  Uses instruments appropriately and safely  Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Proceeds at appropriate pace with economy of movement  Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
Anticipates and responds appropriately to variation e.g., anatomy  Deals calmly and effectively with unexpected events/complications	
anatomy  Deals calmly and effectively with unexpected events/complications	
events/complications	
Lland and intervals.) As the chart of courters of all times.	
Uses assistant(s) to the best advantage at all times	
Communicates clearly and consistently with the scrub team	
Communicates clearly with the anaesthetist	
Placement of incision(s)	
Tissue dissection	
Appropriate reduction of fracture	
- Temporal approach	

Competencies and Definitions	Rating N/D/C	Comments
- Transcutaneous hook		
- Intraoral approach		
Direct exposure of fracture site(s)		
- Intraoral		
- Infraorbital margin		
- Fronto-zygomatic process		
- Zygomatic arch		
Exploration of orbital floor where appropriate		
Identifies and protects of infra-orbital nerve		
Places appropriate bone fixation across fracture site(s)		
Checks eye signs		
Post-operative management		
Ensures the patient is transferred safely from the operating table to bed		
Constructs a clear operation note		
Records clear and appropriate post-operative instructions		
Deals with specimens. Labels and orientates specimens appropriately		

Procedure Outcome (completed by assessor)				
Level at v	which completed elements of the AOP were performed on this occasion	Tick as appropriate		
Level 0	Insufficient evidence observed to support a summary judgment			
Level 1	Unable to perform the procedure, or part observed, under supervision			
Level 2	Able to perform the procedure, or part observed, under supervision			
Level 3	Able to perform the procedure with minimum supervision (needed occasional help)			
Level 4	Competent to perform the procedure unsupervised (could deal with complications that arose)
