

Assessment of Operative Process Mandibular Fractures Excluding Condyles

WBA FORM 02N

Instructions

- This form is for Oral and Maxillofacial Surgery (OMS) Trainees. Trainees should refer to relevant sections of the Accredited Training in OMS Handbook detailing requirements for assessments.
- Please complete all sections of this form and email to omstraineer@racds.org

Trainee Details

| | | | | | | |
|-------------------|--|---------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Trainee name | | Training year | OMS 1 | OMS 2 | OMS 3 | OMS 4 |
| Hospital | | | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Clinical problem | | | | | | |
| Date of procedure | | Start time | | | | |
| Duration | | End time | | | | |

Competencies and Definitions

The trainee should explain what he/she intends throughout the procedure.

The assessor should provide verbal prompts, if required, and intervene if patient safety is at risk.

Ratings N = not observed/not applicable D = development required C = competent (no prompting/intervention required)

| Competencies and Definitions | Rating N/D/C | Comments |
|---|-----------------|----------|
| Consent | | |
| Demonstrates sound knowledge of indications and contraindications including alternatives to surgery | | |
| Demonstrates awareness of sequelae of operative or non-operative management | | |
| Demonstrates sound knowledge of complications of surgery | | |
| Explains the perioperative process to the patient and/or relatives or carers and checks understanding | | |
| Explains likely outcome and time to recovery and checks understanding | | |
| Pre-operative planning | | |
| Demonstrates recognition of anatomical and pathological abnormalities (and relevant co-morbidities) and selects appropriate operative strategies/techniques to deal with these e.g., nutritional status | | |
| Demonstrates ability to make reasoned choice of appropriate equipment, materials or devices (if any) taking into account appropriate investigations | | |
| Checks materials, equipment and device requirements with operating room staff | | |
| Ensures the operation site is marked where applicable | | |
| Checks patient records, personally reviews investigations | | |

| Competencies and Definitions | Rating N/D/C | Comments |
|--|-----------------|----------|
| Pre-operative preparation | | |
| Checks in theatre that consent has been obtained and appropriate time out procedures | | |
| Gives effective briefing to theatre team | | |
| Ensures proper and safe positioning of the patient on the operating table | | |
| Demonstrates careful skin or mucosal preparation – as required | | |
| Demonstrates careful draping of the patient's operative field | | |
| Ensures general equipment and materials are deployed safely (e.g., suction, diathermy) | | |
| Ensures appropriate drugs, inc. local anaesthesia are administered where appropriate | | |
| Deploys specialist supporting equipment (e.g., operating microscope) effectively | | |
| Exposure and closure | | |
| Demonstrates knowledge of optimum skin incision/mucosal/portal/access | | |
| Achieves an adequate exposure through purposeful dissection in correct tissue planes and identifies all structures correctly | | |
| Completes a sound wound repair where appropriate | | |
| Protects the wounds with dressings, splints and drains where appropriate | | |
| Intra-operative technique | | |
| Follows an agreed logical sequence or protocol for the procedure | | |
| Consistently handles tissue well with minimal damage | | |
| Controls bleeding promptly by appropriate method | | |
| Demonstrates a sound technique of knots and sutures/staples | | |
| Uses instruments appropriately and safely | | |
| Proceeds at appropriate pace with economy of movement | | |
| Anticipates and responds appropriately to variation e.g., anatomy | | |
| Deals calmly and effectively with unexpected events/complications | | |
| Uses assistant(s) to the best advantage at all times | | |
| Communicates clearly and consistently with the scrub team | | |
| Communicates clearly with the anaesthetist | | |
| Application of arch bars | | |
| Placement of incision(s)/flap design | | |
| Exposure of fracture site | | |
| Debridement of fracture cleft | | |

| Competencies and Definitions | Rating N/D/C | Comments |
|---|-----------------|----------|
| Removal of unsalvageable tooth/teeth in or adjacent to fracture site | | |
| Identifies and protects mental nerve | | |
| Reduction of fracture site/establish occlusion/intermaxillary fixation | | |
| Places appropriate bone fixation across fracture site | | |
| Checks occlusion | | |
| Post-operative management | | |
| Ensures the patient is transferred safely from the operating table to bed | | |
| Constructs a clear operation note | | |
| Records clear and appropriate post-operative instructions | | |
| Deals with specimens. Labels and orientates specimens appropriately | | |

Procedure Outcome (completed by assessor)

| Level at which completed elements of the AOP were performed on this occasion | | Tick as appropriate |
|--|--|---------------------|
| Level 0 | Insufficient evidence observed to support a summary judgment | |
| Level 1 | Unable to perform the procedure, or part observed, under supervision | |
| Level 2 | Able to perform the procedure, or part observed, under supervision | |
| Level 3 | Able to perform the procedure with minimum supervision (needed occasional help) | |
| Level 4 | Competent to perform the procedure unsupervised (could deal with complications that arose) | |
